15th International Exhibition & Conference on Minerals, Metals, Metallurgy & Materials

10 - 12 September 2026 Yashobhoomi, Dwarka New Delhi, INDIA

ABOUT INDUSTRY

India is the world's second-largest producer of crude steel and has produced 126.6 million tonne (MT) of crude steel during Financial year ended March 31, 2026, the output was about 5.5 per cent higher compared to the country's production in the preceding fiscal year which was 120 MT steel in 2021-22.

The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output.

Government of India is aiming to scale the Steel production up to 300 Million Tons and increase the per capita steel consumption up to 160 kgs by 2030-31 as per National Steel Policy. The liberalization of industrial policy and other initiatives taken by the Government have given a definite impetus for entry, participation and growth of the private sector in the steel industry.

Indian Steel Industry is witnessing consolidation of players which will present an opportunity for global players to enter the Indian Market, while the existing units are being modernized/expanded, a large number of new steel plants have also come up in different parts of the country based on modern, cost effective, state of-the-art technologies.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

ABOUT MMMM

MMMM is, by far, the largest and the most prestigious event on Minerals, Metals, Metallurgy & Materials with presence of a large number of leading companies of Mining, Metals and Materials industries. The event has always received worldwide appreciation from all over the industry and proved to be the best international business platform in India. The event is being organised by Hyve India Private Limited (Formerly known as International Trade and Exhibitions India Pvt Ltd), the Indian subsidiary of Hyve Group

A Sneak Preview

- Supported by World Metal Forum (WMF) and relevant Ministries, trade associations
- Expected Presence of 400+ leading Exhibitors from 15+ countries
- Concurrent Open Seminar
- 25 + Invited International Trade Delegations from 10+ Countries
- Exclusive Industry Excellence Awards
- Investor Meet by International Chambers of Commerce
- Various New Launches by exhibitors

A complete conclave of Policy Makers, CEOs, and Industry experts, Scientists, Academia and Engineers associated with Minerals, Metals, Metallurgical and Allied Industries

and MUCH MORE to Explore...

We delivers game-changing impact for people, business and beyond. How? By helping people to make the connections that could change everything, through its portfolio of unmissable events and hyper-productive meetings programmes. Hyve is on a mission to redefine everyone's expectations of events and is using cutting-edge technology and data to amplify their transformative potential. Hyve's portfolio includes world-renowned brands such as Shoptalk, Bett, CWIEME and Fintech Meetup.

We work across various industry sectors including, Engineering, Metal, Machinery, Paper, Packaging, Pro Sound & Light Roofing, Tools, Tissue and more across India & beyond.
